Profile

I am a highly motivated and enthusiastic software engineering graduate with a passion for graphics design and digital marketing. Seeking a challenging position in the field of software development where I can apply my diverse skill set, continuously learn and grow in a professional setting.

Education

Diploma in software engineering

zitech university

05.2021 – 12.2022

Nairobi, Kenya

Pursued a Diploma in Software Engineering at **Zitech University**. During my studies, I have gained a comprehensive understanding of programming languages such as Java, Python, HTML/CSS and javascript, and PHP, as well as software development methodologies and database management. Through various group projects and individual assignments, I have developed strong analytical and problem-solving skills and have experience working in a team environment. During my completion period, I got some work experience after I went for an industrial attachment experience at Terisa Foundation, a non-profit organization dedicated to sponsoring students promoting technology education and empowering women and girls living in informal settlements and ASAL areas to overcome poverty and achieve their full potential.

Secondary Education

Ngoto Boys Highschool (Graduated in: 2019)

Minimum Grade: C

Makueni, Kenya

Certificates earned:

Certificate of Merit for participating in a Science and Engineering Fair up to the Sub County Level

Extracurricular Activities:

Chairman of the Computer Club (Form Four)

Deputy Chairman of the Computer Club (Form Three)

Participated in Drama Festivals.

Primary Education

Neem Tree Education Center

2007 – 2014

Nairobi, Kenya

Professional Experience

full stack developer

terisa foundation

06.2023 – present

machakos, Kenya

I had the privilege of participating in an industrial attachment at the Terisa Foundation, a non-profit organization dedicated to promoting technology education and empowering underprivileged women and girls in informal settlements and ASAL areas.

During my attachment, I undertook a variety of responsibilities, including:

- Web development and maintenance
- Graphics design
- Collaboration with a former developer
- Laptop refurbishment and repair
- Contribution to the high school tech initiative

The experience was a valuable opportunity to apply my creative and technical skills in real-world scenarios. I played a significant role in improving the foundation's online presence and user experience, including the design, development, and maintenance of their website. My collaboration with the former developer and laptop refurbishment phase demonstrated my problem-solving and attention to detail. The launch of the high school tech initiative allowed me to contribute to curriculum development and the setup of a computer lab, enhancing my overall experience and skillset.

Skills

Programming languages (Java, Python, HTML/CSS and javascript, PHP, C#, C and C++),

Tools and technologies (Git, Vs code, Android studio, Visual Studio, Zend Studio, Lunacy, Figma, Eclipse, Photoshop, GIMP, Canva, CapCut, unity, blender, block bench,),
